THE UNIVERSITY OF THE STATE OF NEW YORK

GRADE 5

ELEMENTARY-LEVEL SOCIAL STUDIES TEST

RATING GUIDE

BOOKLET 1
OBJECTIVE AND CONSTRUCTED-RESPONSE QUESTIONS

NOVEMBER 13, 2002

Mechanics of Rating

The following procedures are to be used in rating papers for this test. More detailed directions for the organization of the rating process and procedures for rating the examination are included in the Test Manual for Administrators and Teachers for the Grade 5 Elementary-Level Social Studies Test.

Scoring the Part I Objective (Multiple-Choice) Questions

The student’s score on Part I is the total number of questions that the student answers correctly. There is no penalty for wrong answers. A list of correct answers is printed on the scoring key.

The separate answer sheets provided by the Department for Part I may be either machine scored or hand scored.

Machine Scoring: The separate answer sheets provided by the Department can be processed only on NCS scoring equipment. If you are making arrangements with a scoring center for machine-scoring services, be sure that the scoring center is able to score the type of answer sheets submitted by your school.

THE STATE EDUCATION DEPARTMENT
Albany, New York 12234
Hand Scoring: The answer sheets supplied by the Department can be hand scored using the scoring key printed on translucent paper that is provided with the test. On the key, boxes have been printed to indicate correct answers. When the key is aligned properly with the answer sheet, each correct answer will be visible in a box. To hand-score the answer sheets, use the following procedures:

1. Scan each answer sheet to make certain that the student has marked only one answer for each question. If two or more answers have been marked, award no credit for that question in scoring.

2. Place the scoring key on the answer sheet so that the box indicating the correct answer for each question corresponds to the row of answer circles for that question.

3. To obtain the total raw score for Part I of test, count the number of correct answers. The maximum score for Part I is 35.

Record the Part I score in the space provided on the Part I answer sheet. (The score may also be recorded on the back cover of test booklet 2.)

Rating the Part II (Constructed-Response) Questions

This rating guide contains a question-specific rubric for the Part II (Constructed-Response) questions.

Follow your school’s procedures for training raters. This process should include:

Introduction to the constructed-response questions—
- Raters read the questions
- Raters identify the answers to the questions
- Raters discuss possible answers and summarize expectations for student responses

Introduction to the rubric—
- Trainer leads review of specific rubric for constructed response questions

Rating the constructed-response questions—
- Answers to the constructed-response questions need only be scored by one rater
- Scores for each constructed-response question may be recorded in the student’s test booklet

The scoring coordinator will be responsible for organizing the movement of papers, calculating a Part II score for each student, and recording that score on the student’s Part I answer sheet. (The score may also be recorded on the back cover of test booklet 2.)
Map of New York: Early Indian Tribes (Questions 1–2)

Question 1  According to this map, how many tribes belonged to the Haudenosaunee (Iroquois Confederacy)?

Score of 1:
- States that six tribes belonged to the Iroquois Confederacy
  Examples: 6; six

Score of 0:
- Incorrect response
  Examples: Seneca, Cayuga, Onondaga, Oneida, Mohawk, Tuscarora; five; names of the Algonquian tribes
- No response
