Scoring Clarification for Teachers

Regents Examination in Integrated Algebra

Thursday, August 16, 2012, 8:30 a.m.

Question 38, Only

_____

Due to typographical errors in the fourth example of a 2-credit response and in the second example of a 1-credit response, a revised rubric for these examples has been provided. In both instances, the correct denominator should be "29" rather than "19." Please verify that all students' responses to Question 38 have been scored in accordance with the corrected rubric below.

(38) **[2]** $\mathrm{Cos}\, x = \dfrac{17}{29}$ and $17^2 + BC^2 = 29^2$ are written, but no further correct work is shown.

[1] $\mathrm{Cos}\, x = \dfrac{17}{29}$ or $17^2 + BC^2 = 29^2$ is written, but no further correct work is shown.

Please photocopy this notice and give a copy of it to each teacher scoring the Regents Examination in Integrated Algebra.

We apologize for any inconvenience this may cause you, and we thank you for your hard work on behalf of the students in New York State.
